THE FUTURE OF INFECTION CONTROL IS HERE!

WE-4 Anti-Virus Fogger

Meeting the EPA's criteria for use to fight COVID-19, this new sanitizing technology combines the efficiency of the lightweight backpack design and adjustable nozzle with the power of **PUR TABS**' safe and effective formula to deliver results up to 3X greater than traditional disinfecting and sanitizing equipment.

We are so confident of the quality of our foggers that if it breaks, we will provide you a loaner within 24 hours at no cost.

**Lightweight
Portable
Easy to Use**

If your fogger can be repaired, we will repair it while you are using the FREE loaner and only charge for the repair cost and return it to you. If your fogger is not repairable, we will replace it for FREE in the first 6 months of use.

Disinfecting Kit

Disinfecting kit includes one backpack **WE-4 Anti-Virus Fogger**, which holds four gallons of disinfectant, and an attached, adjustable sprayer nozzle that covers more surface area without having to re-fill.

Use four (4) **PUR TABS 13.1G Tablets** per one (1) gallon of water.

Each container of PUR TABS makes 64 gallons of disinfectant.

At just over \$2.25 per gallon of disinfectant, PUR TABS is an affordable and practical solution you need working for you.
